

## SQLSERVER2008R2 英文版安装说明

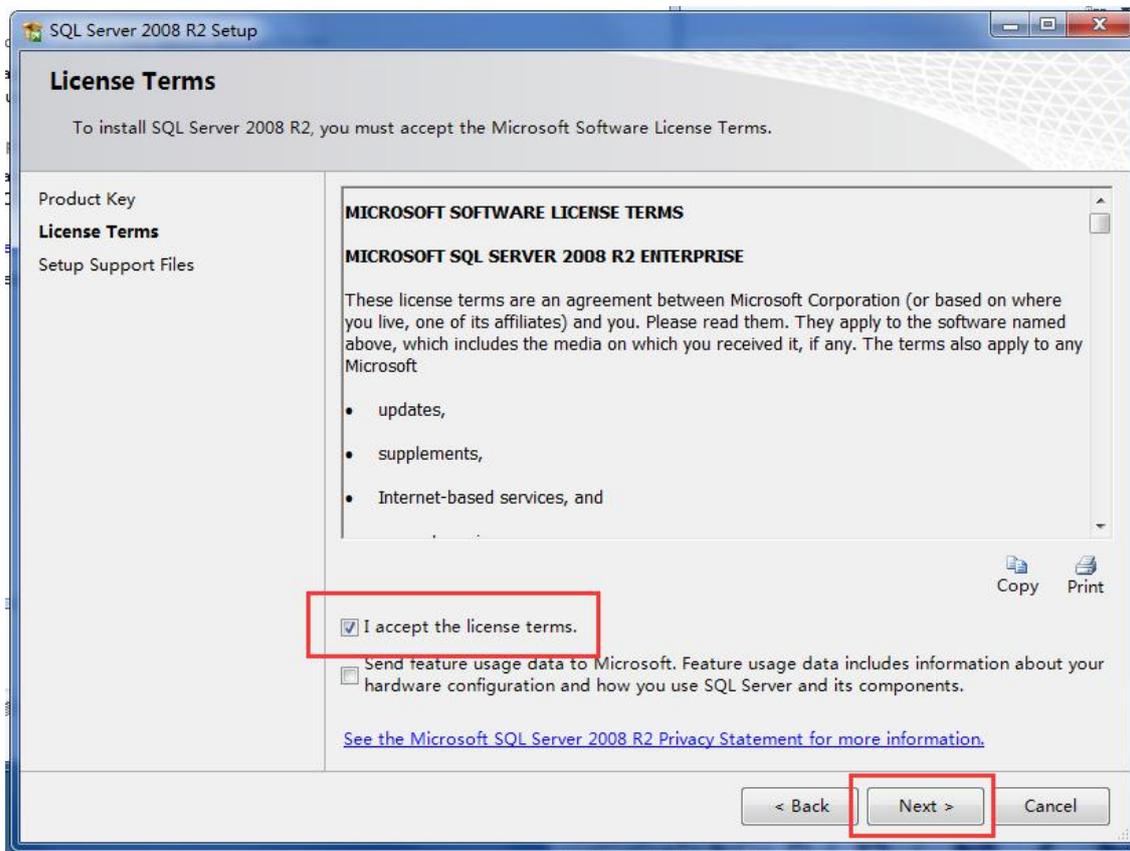

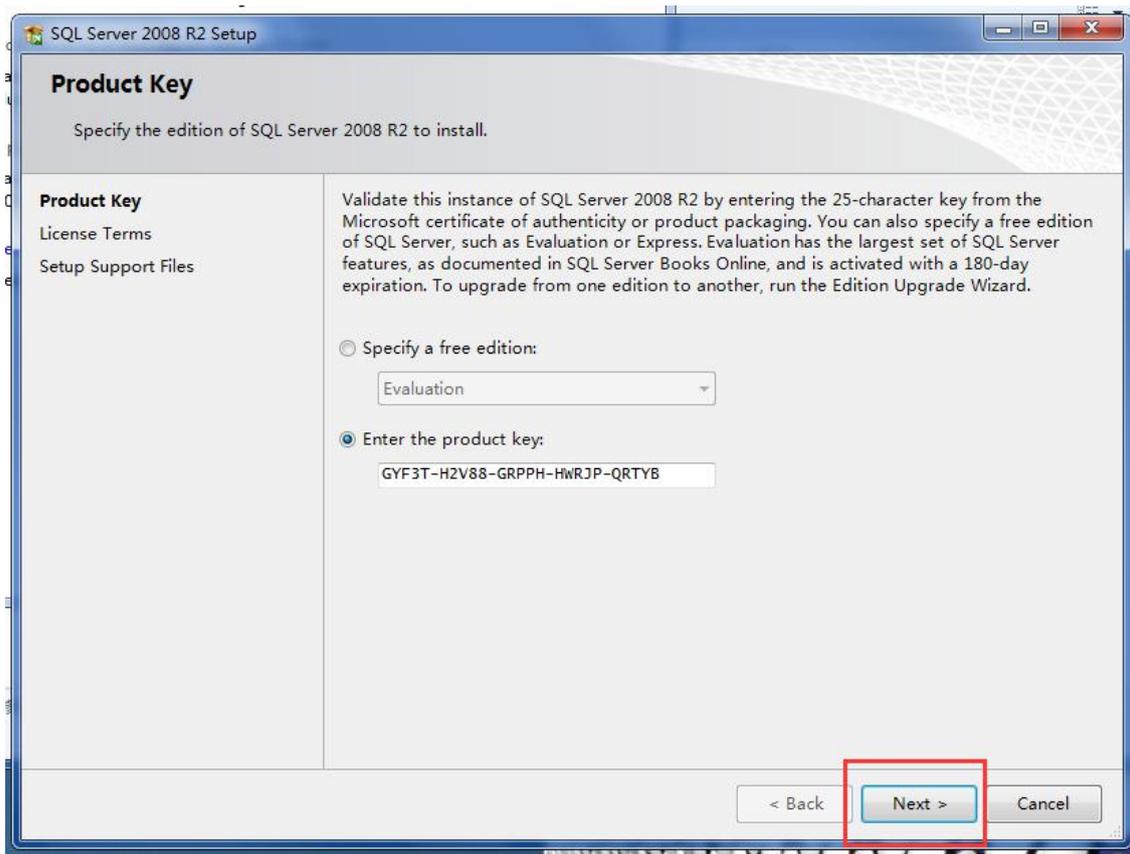

1、 解压出来我发给您的安装包，如果解压之后，显示的文件夹的名称比较长，请给改名变短一些，比如：默认为 en\_sql\_server\_2008\_r2\_enterprise\_x86\_x64\_ia64\_dvd\_520517，请改名为 Sqlserver2008R2 之类的比较短的，因为有一些操作系统不支持长文件夹名目录下面的文件的安装

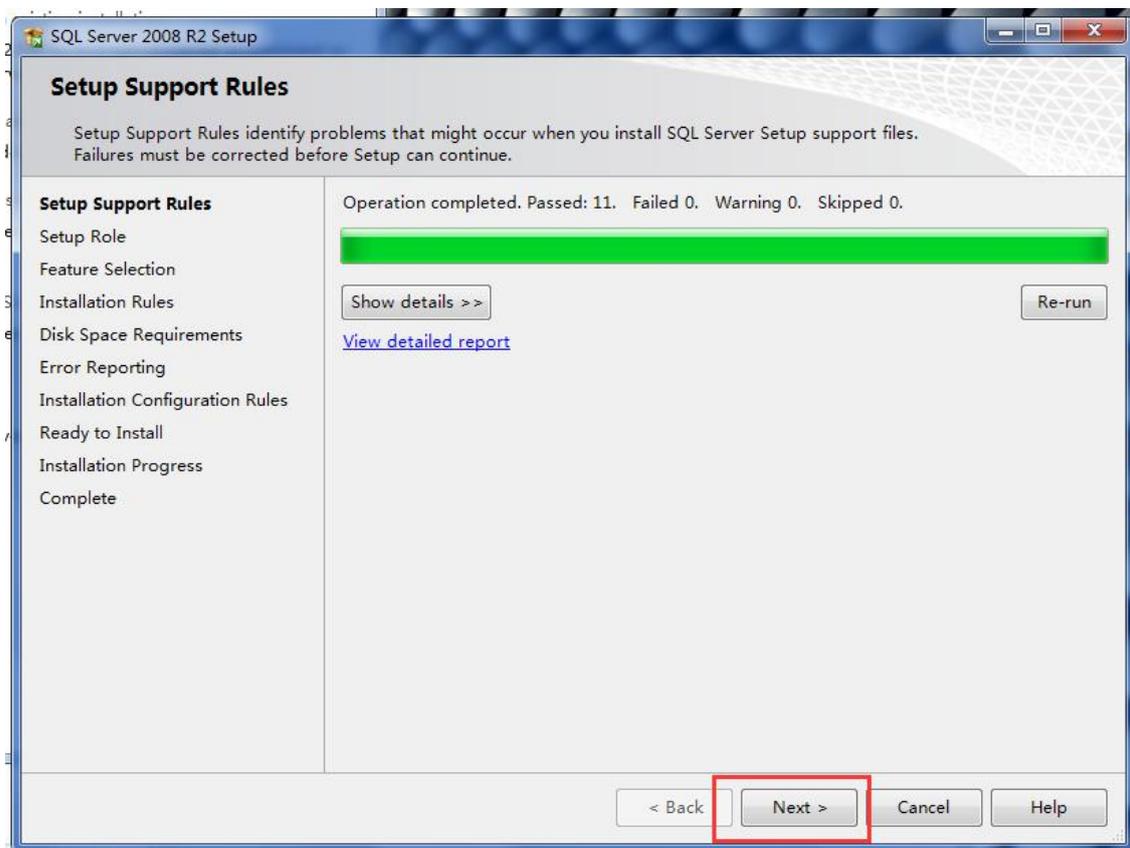

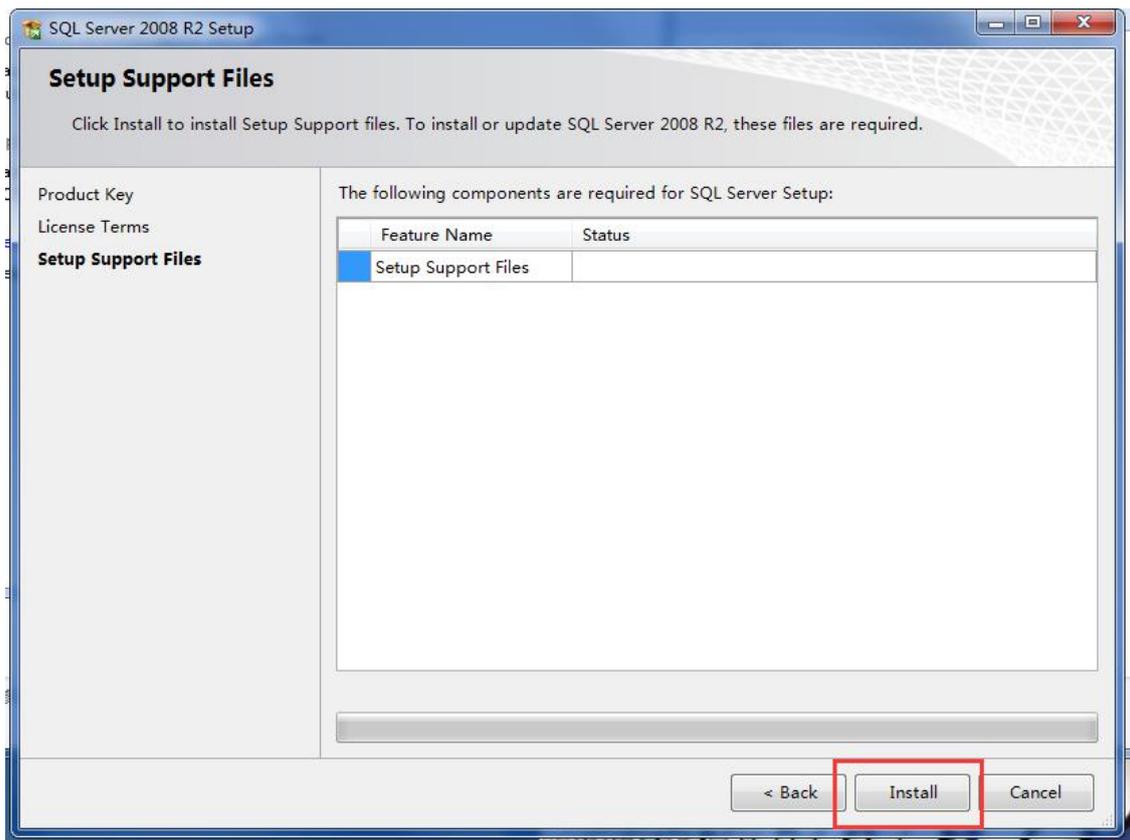

进入解压出来的文件目录，【右键】单击【Setup.exe】，选择【以管理员身份运行】，这个很重要（如果服务器的机子为 XP 系统则不用），因为非管理员身份下，很多重要的组件安装操作系统不让安装

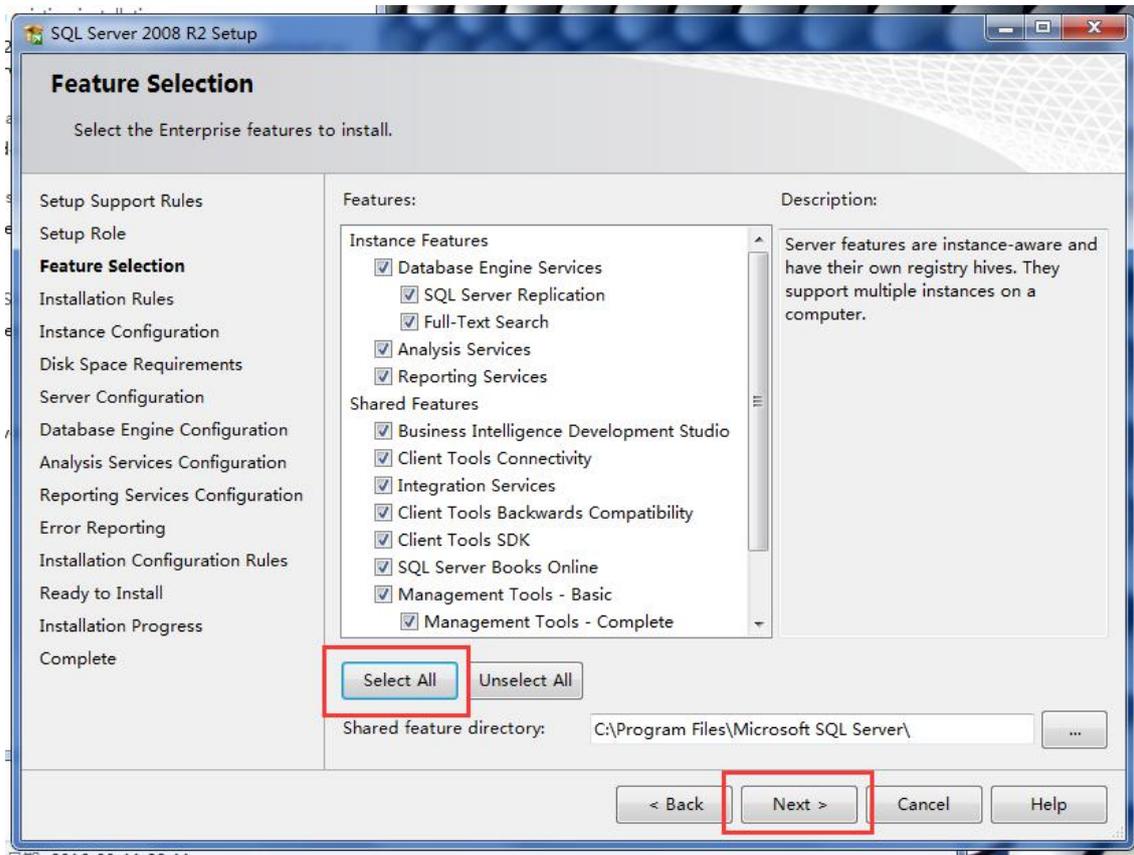

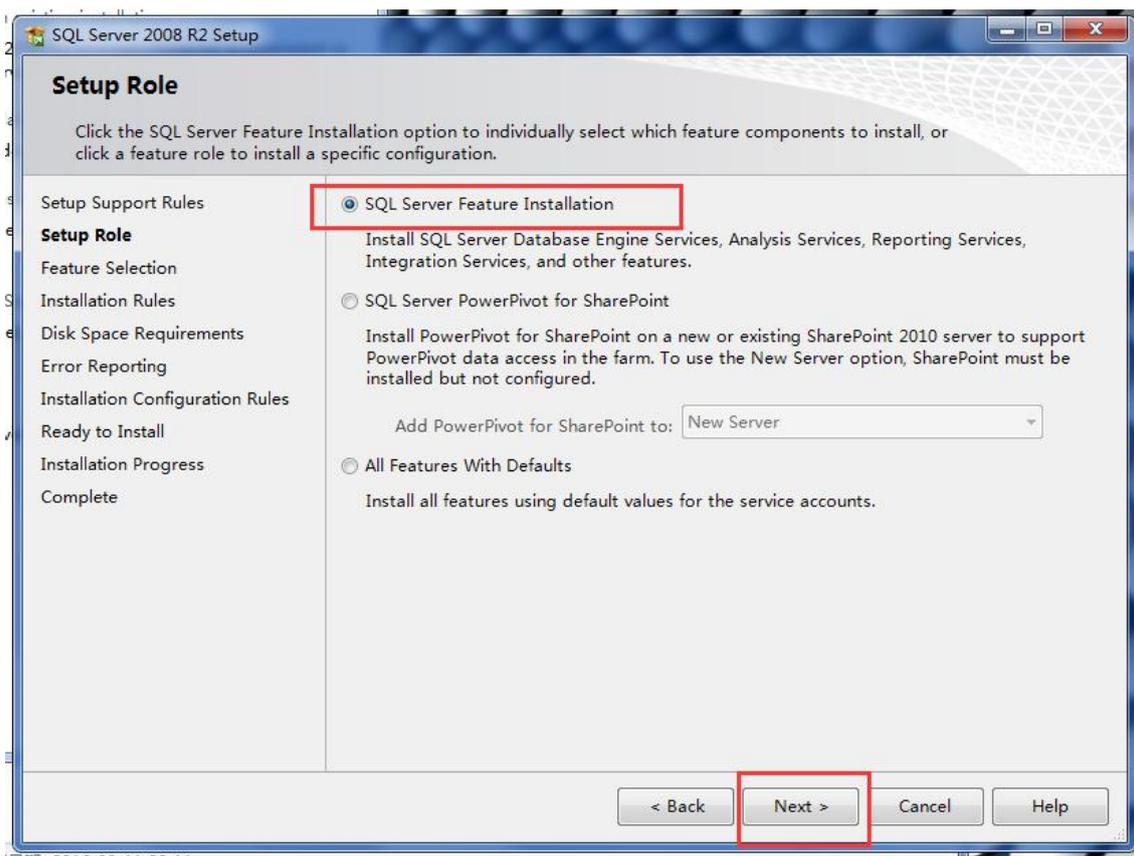

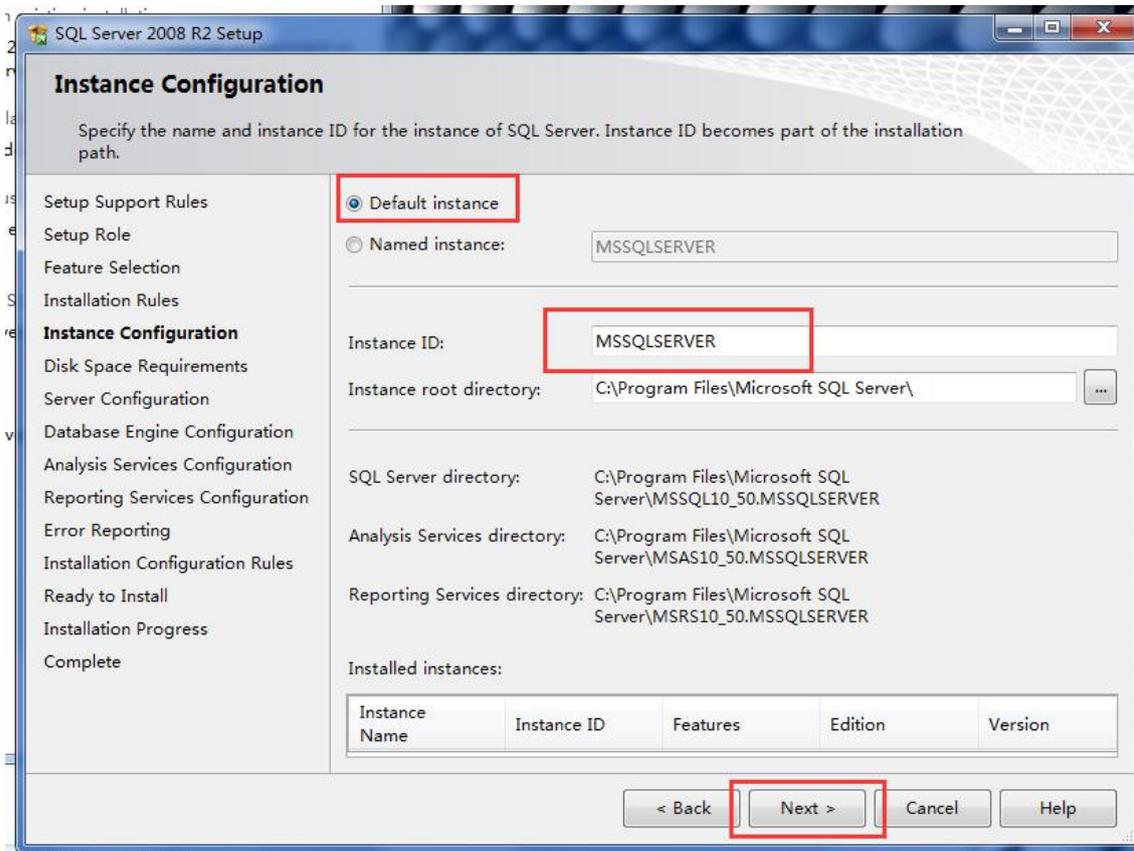

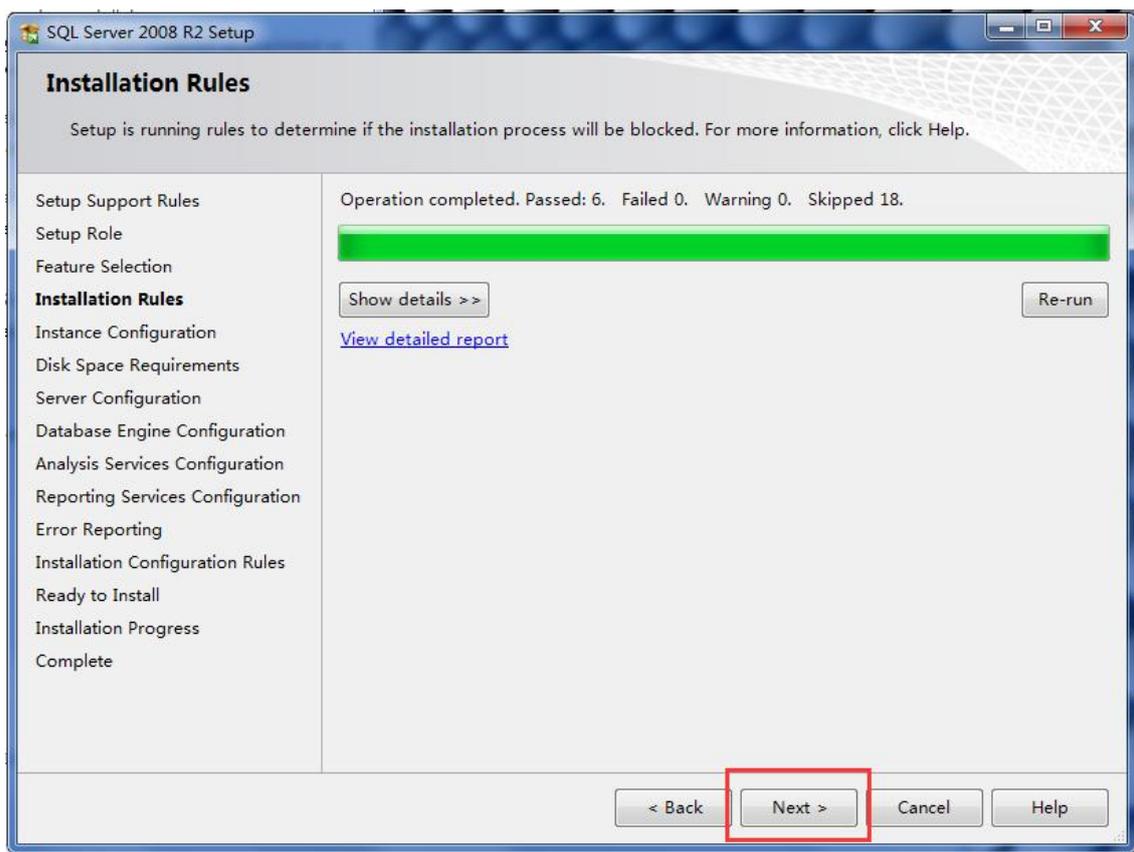

2、 接下来就是正式进入安装界面，按以下截图一步一步操作就可以了
